

ACE 2010 Accepted Poster Paper List

Paper ID	Title	Author
7	Protocol Scrubbing: Network Security through Transparent Flow Modification using Active Real Time Database	Mr. Satish N. Gujar, Mr. S.R.Gupta, Dr. M.S.Ali
12	Transistor Count, Chip Area And Cost Optimisation Of Fault Tolerent Active Pixel Sensors (Ftaps) By Mofified Sensor Architecture And Tspice Based Verification Of Proposed Architecture	Debapriyo Ghosh
21	MBT:Domain-Specific Modelling	Kalyani Pampattiwari, SonalChaudhari, PreetiPrasada, Shubhangi Vaikole,
23	A New Way to Design Intelligent Computer	Xu Jian
24	Smarter methods of User Authentication	Anup.B.Goutham
25	Use of geometry to prevent counterfeiting of fast moving, low shelf life goods.	Anup.B.Goutham
27	An Intelligent Approach For Handover Decision In Multi Network Wireless Environment	Manoj Sharma1, Dr. R.K. Khola
28	Classification of Seed Cotton Yield based on the Growth stages of Cotton crop using Machine Learning Techniques	Jamuna KS, Karpagavalli S, Vijaya MS, Revathi P, Gokilavani S, Madhiya E
34	High End Scientific Visualization With Scalable Display System	S. K. Bose, Dinesh M Sarode, Venkata P P K, Pritam P Shete and A. G. Apte
39	Security In Wireless Sensor Networks	Praveen Kumar,Satish Chhokar
46	Face Detection Using Gabor Feature Extraction and Artificial Neural Network	Bhaskar Gupta , Sushant Gupta , Arun Kumar Tiwari
47	Robust Approach To Brain Segmentation in fMRI Data	Bhaskar Gupta , Sushant Gupta , Arun Kumar Tiwari
53	Fast Generation of Pseudo-Random Cryptographic Keys using Variable Speed String Rotations	Suhas J Manangi, Parul Chaurasia, Mahendra Pratap Singh
61	Virtual Advertisement with Live Entertainment Program for Real-Time Video Application	Arpita Patel, Pinal Patel
62	Self-Localization of a Mobile Robot in an Unknown & Unstructured Environment	Divya Udayan J, Roshy M John, Gireesh Kumar

		T, K.J Poornaselvan
66	Image Retrieval Techniques based on Image Features: A State of Art approach for CBIR	Mr. Kondekar V. H., Mr. Kolkure V. S., Miss.A.N.Khan
77	Design and Analysis of Low Power Transistor Full Adders Using CPL and Transmission Gates	Viranjay M. Srivastava, Nidhi Mishra, Gagan Gupta
79	Classification of Consumer Behavior using Functional Link Artificial Neural Network	Ritanjali Majhi, Sunayana Pandu, Bijayalaxmi Panda, Babita Majhi and G. Panda
96	Wavelet Based Image Registration And Image Fusion	Manjusha Deshmukh , Udhav Bhosale
105	A Rule based Model for Efficient Representation and Accurate Recognition of Human Faces	B H Shekar, G Thippeswamy, P Shivakumara
109	Taking Linux Filesystems to the Space Age: Space maps in Ext4	Pavneet Kaur Saurabh Kadekodi Shweta Jain Anuj Kolekar
116	Comparative analysis of DSDV, AODV and DSR routing protocols using NS2	Asma Tuteja, Rajneesh Gujral Sunil Thalia ,
118	Neural Network Based Context Dependent Recognition Approach For Low Indexed Images	G.Shyama Chandra Prasad,Dr. A.Govardhan,Dr. T.V.Rao
119	An Integrated Approach of AHP-GP and Visualization for Selection of Software Architecture : A Frame work	K. Delhi Babu Dr. P. Govindarajulu Dr. A. Ramamohana Reddy A.N. Aruna Kumari
126	Hybrid TDMA/FDMA MAC Protocol (HyMAC) For Wireless Sensor Networks	A.R.Deshmukh
128	Unfolding the Distributed Computing Paradigms	Pankaj Deep Kaur, Inderveer Chana
131	Reliable Broadcasting Using Efficient Forward Node Selection for Mobile Adhoc Networks	G. Kalpana and M. Punithavalli
136	Network Fault Management in Grid using Multi-Agents	S. Parthi Kumar S. Sivasamraj G. Subbiah, C. Valliyammai S. Thamarai Selvi
137	Enhancing Security for MANETs by Using Elliptic Curve Cryptography	Rubaiyat Islam Rafat Kazi Muheymin Sakib
156	A Cluster Based Authentic Inter Vehicle Communication	S.Sivagurunathan,

		V.Mohan, S.Prasanna
157	Tree Structured Time Synchronization Protocol in Wireless Sensor Network and its Comparative Study	Surendra Rahamatkar Dr. (Prof.) Ajay Agarwal
164	Performance evaluation of Message Passing and Cramer-Rao Lower Bound Algorithm in Wireless Sensor Localization	Nagarajan .M Dr.S.Karthikeyan
165	Proactive Approach for Cooperative Caching in Mobile Adhoc Networks	Prashant Kumar Naveen Chauhan
167	A Comprehensive Review of SMS driven Information Systems	Manish Joshi ¹ , Varsha Pathak
169	Challenges in Web Service Description, Discovery, Selection and Compositions	Demian Antony D'Mello Ananthanarayana V. S V. Lakshmi Narasimhan
172	Dynamic Signature Using Time Based Vector Quantization by Kekre's Median Codebook Generation Algorithm	H B Kekre, V A Bharadi, T K Sarode
175	Reducing Hand-off Latency in WiMAX networks using Cross Layer Information	Suman Bhunia, Anindita Kundu,Iti Saha Misra, Salil K. Sanyal
179	An improved Channel Allocation scheme and Traffic Management in Wireless Network	S.Malathy, G.Sudha Sadasivam
181	A simplified approach to word alignment algorithm for English-Tamil Translation System	Harshawardhan. R, Prabhat Kumar Thakur, K. P. Soman
182	Wavelet approach for edge detection in Iris Recognition System	Banani Saha,Moumita Chatterjee
183	Clustering Based URL Normalization Technique for Web Mining	Naresh Kumar Nagwani, Dr. Shrish Verma
188	A Hybrid Segmentation Techniques for Handwritten Isolated words in Gurmukhi Script	Dharam Veer Sharma , Galaxy Bansal
196	Elliptic Curve Cryptographic Security in Transmission Control Protocol	Suhas J Manangi, Parul Chaurasia, Mahendra Pratap Singh
198	Securing Binding Updates in Routing Optimizatoin of Mobile IPv6	D.Kavitha ,S.Zahoor ul Huq ,Dr.K.E.SreenivasaMurt hy , Dr.B.Sathyanarayana
203	Improvising the Indian Kiosk Voting System Using Biometric Authentication with Hierarchically Structured Servers	S. Archana,G. Anusha,M. Karthiga
209	Modeling and Simulation of Multi-Operation Microcode-based Built-In Self Test for Memory Fault Detection and Repair	
502	Multimedia Sensor Networks and Applications	Mandeep Kaur , Amandeep Kaur
507	Effective Decision Making System towards Sensor Database Using Efficient Fuzzy Evolutionary Algorithm	K.John Peter, G.Nagarajan

522	Adaptive Learning in Generalized Neuron Model for Short Term load Forecasting under Error Gradient Functions	Chandragiri Radha Charan,
526	Web-Enabled Framework for Real-Time Scheduler Simulator (A Teaching Tool)	Yaashuwanth , Dr.R. Ramesh , V. Sivagurunathan
533	Topology Aware Mobile Agent for Efficient Data Collection in Wireless Sensor Networks with Dynamic Deadlines	Pranesh V Kallapur Dr. Niranjan N Chiplunkar
534	Throughput Enhancement in Scalable MANETs using Proactive and Reactive Routing Protocols.	M. Saravana Karthikeyan, M. Murali , Dr.S.Sujatha
536	Use of Product Rule in Score Level Fusion Multibiometric Systems.	Shekhar Karanwal, Davendra Kumar, Rohit Maurya
542	Real-time Object Segmentation in Smart Camera for Remote Surveillance Scenario	Sanjay Singh, Srinivasa Murali Dunga, A S Mandal
557	Mobility Aware Routing for Improving Energy Efficiency in Mobile Ad hoc Networks	M.Saleem Babu, M.Syed Rabiya
559	A Framework For Mining Evolving User Profiles On Web Usage	G.Kalyani, Dr.B.Eswara Reddy
562	Designing the Round Robin Scheduling Algorithm for Uniprocessor Systems Using Variable Time Quantum	Suman Allawadhi, Akshay Tayal
571	Mining Unexpected Quantitative Temporal Association Rule:Detecting Adverse Drug Reactions	K.V.Uma, A.M.Rajeswari
574	Prediction of Learning Disabilities in School-Age Children Using Decision Tree	Julie M. David, Kannan Balakrishnan
577	An Efficient Embedding and Restoration Steganographic Scheme for Secure Multimedia Communication	Gireesh Kumar T, Sapna Sasidharan, Karthikha N R, Sherly A P, Avani Y
579	Implementation of Sensor Network for Indoor Air Quality Monitoring using CAN Interface	Minu A Pillai, Sridevi Veerasingam, Yaswanth Sai D
595	Structural Similarities between the Catalytic Domain of Threonine Deaminase and the Mammalian Serine Racemases	Kuchi Srikeerthana, Patrick De Causmaecker
616	An Improved Ant Algorithm for Network Traffic Control	Omkar Nath
617	Network Security And Data Communication Using Keystroke Dynamics	Mr.M.Rameshkumar, Mr.M.Saravanan
623	A Data Compression Algorithm for Normal Texts	Kshitiz Agarwal and Karm Veer Arya
626	Increasing throughput in clusters by using basch	M.Balajee , B.Suresh, M.Suneetha, V.Vasudha Rani

635	Virtual Market Using Logistics Optimization	Reddy Veera Babu, Prof.M.Venkata Rao
639	An Investigative Approach Towards Computer Music Languages	Jagruti Sanghavi, Akansha Pilley , Dr. N. G. Bawane
641	Efficiency of High Order Mutation Operators : An Experimental Evaluation	Gagandeep, Amandeep Kaur, Dr. Jyotsna Sengupta
644	Mobile Computing Security for Ad Hoc Networks using authentication	Virendra Singh Kushwah, Amit K. S. Sanger, Kamal Kumar Chauhan
648	Comparison Of Hybrid K-Means With K-Means	Parvesh Kumar, Siri Krishan Wasan
651	Optimization Of Test Cases Using Hybridised Approach Of Concept Analysis And Particle Swarm Optimization	S.Selvakumar, N.Ramaraj, M.R.C.Dinesh, C.Dhineshkumar
658	Computer Aided Diagnosis System For Kidney Ultrasound Images	Ms.P.R. Tamilselvi Dr. P.Thangaraj
659	Analyzing The Reusability Level Of Software Packages Using Software Testing Approach	R. Kamalraj A. Rajiv Kannan, P. Ranjani,
662	High Performance Alu Design By Ancient Mathematics	Anvesh Kumar,Er. Ashishraman
669	Impact Of Technology Scaling On Second Generation Current Conveyors	Nilesh K. Patel, Amisha P. Naik , N.M.Devashrayee
674	New Scheme For Preventing Sim Cloning	Shekhar Gupta, Divya Upadhyay
677	Energy-Efficient Communication Protocol For Wireless Sensor Networks	Smt S.Prabhavathi,Smt K.S Aparna
